

# Building tomorrow's minds :

On the shoulders of teaching giants in the bush capital

Anita is nominated for her tireless commitment to excellence in teaching.

She has brought to St Joseph's a deep understanding of the Science of Reading and Science of Learning, which has provided excellent leadership within the classroom throughout our Catalyst journey.

Anita is a fervent researcher with a desire to learn about the mechanics of learning to read and how to best support students who experience difficulties. Currently she is supporting our growing number of EAL/D students through small group intervention and targeted learning goals.

Anita strives to improve her own practice, while at the same time presenting a great lead to other teachers at St Joseph's and within our system.

She does this through seeking timely and relevant professional learning and through ongoing study.

Within her classroom, Anita gains a deep knowledge of her students and uses this to guide their learning and present challenges that expand their successes.

Anita is an asset to our school.
