

## Building tomorrow's minds :

On the shoulders of teaching giants in the bush capital

Jenelle Reynolds is a teacher that goes to extraordinary lengths to ensure that every child experiences success, regardless of their starting point when they arrive with her at UCHSK. Jenelle knows that there is not a one size fits all model to education, and is a strong advocate for a culture of inclusion.

A fine example of this dedication and commitment to meeting every learner at their point of need is from several years back when Jenelle was supporting a child who had significant anxiety which impacted their ability to attend school with confidence.

During the school term break, Jenelle met with the family and took her dog along as a connection point for this student. Over time, the student developed increasing confidence and was able to return to school in a staged approach, ultimately returning to full time schooling.

Due to the care, effort, adjustments and time that Jenelle put into the development of confidence of this student, they were able to successfully complete school with their cohort, attend college and go on to be a successful participant in all facets of society.
