

Building tomorrow's minds :

On the shoulders of teaching giants in the bush capital

Karen exemplifies everything that it means to be a high impact, child centred, innovative Early Childhood Educator.

She is driven by a passion to bring children's wonderings to life and ensures that each individual child's voice is valued and celebrated at Preschool. Karen co-creates and curates spaces, both indoor and outdoor, that spark curiosity and joy in her learners.

Learning is personalised, every child feels they truly belong and has a sense of autonomy to be whoever they choose to be. Learning at Preschool is like an adventure. Under Karen's expert guidance children thrive and grow as they explore and make sense of their world.

Karen continually seeks opportunities to stay current with contemporary Early Childhood educational research and uses her newly acquired knowledge to spark passion in her colleagues.

Daily, Karen is actively building tomorrow's minds, starting with our youngest learners and the future is definitely in good hands. We are so grateful at Theodore to have Karen as part of our education team. Thank you for loving your work every day Karen- your impact is immeasurable!
