

Building tomorrow's minds :

On the shoulders of teaching giants in the bush capital

Franca Tomadini is a deeply dedicated and highly experienced educator who pours her heart into every aspect of her teaching. At the core of Franca's practice are the relationships she fosters with her students, making each child feel valued, supported, and understood.

She creates a nurturing environment where students develop a love of learning and feel safe to express themselves. Franca's ability to connect extends to parents as well, building strong, positive partnerships to support the growth of her students.

Franca is a relentless advocate for her students, ensuring that each child receives the support they need to thrive academically and emotionally. Her classroom is a space where empathy, kindness, and compassion flourish. She has an open-door policy, always available to students and families, providing not only academic guidance but emotional support. In addition to her work with students, Franca is an exceptional mentor to less experienced teachers. She generously shares her wisdom while also embracing collaboration, continuously seeking opportunities to learn from her peers.

Her commitment to personal and professional growth is a testament to her passion for being the best teacher she can be.

Franca's inspiring presence at St Benedict's has left an indelible mark on her students, their families, and her colleagues.

She embodies the qualities of a true teaching giant, and her contributions to our school community are immeasurable.
